

Drug policy

BSC has a role in dealing with drug abuse in football. Whilst it is not feasible for us to test players BSC strongly agrees competition should be played on the basis of athletic prowess and natural levels of fitness and development and not on any pharmacologically enhanced basis. We believe the only legitimate use of drugs in sport is under the supervision of a physician for a clinically justified purpose. We support the prohibition of the use of performance enhancing substances and adopt the FFA Anti-Doping Code. We ask all players to abide by this Code and will refer any breach of the Code to the BSC Disciplinary Committee
